Sahaja Yoga at the National Multicultural Festival held in Canberra 12- 14 February 2016

The National Multicultural Festival held in Canberra this year was blessed with the most perfect weather, contributing to the success of the event and to the Sahaja Wave Group – the latter comprising musicians from the Melbourne, Canberra and Brisbane collectives.

This Group will give a concert on Sunday 14th March at the Canberra Contemporary Dance Centre in Canberra. On the same day and the day before, the Group will also be performing at the Canberra Multicultural Festival. The Festival is a very big event, with over 100 stalls and performances on the centre of activity in the nation's capital with one purpose in our heart and mind of Inner Ecstasy and Peace. A group photo taken at the Festival is attached for your information and for your joy.

Together with this we also organised a very big and successful Sahaja Yoga Meditation Camp in Canberra, during the Festival days.
